Y.M.C.A. AND AT WAIALUA MAILES WIN

The Mailes beat the Infantry at socker yesterday, 2 to 0, and the Y. M. C. A. won from the Punahous by a similar score. They were scratchy games and bore evidence that the tattered end of the season has arrived. Both goals in the first game were scored in the first half, the first going

in off Anderson's head and the second being kicked by H. Balley. Malles played ten men and some of them in three or four positions. It

was quite a novelty to see the backs playing forward. The Infantry played their usual resolute game and held their opponents

well in the second half. It was the Mailes' farewell league and the championship went with it.

The teams: Mailes-F. Bailey, H. Bailey, Belser, Jamieson, Gray, Catteral, R. Ander-son, R. Chillingworth, Center, Kea. Infantry-Goal, Thompson; backs, Swift, Von Hofen; half backs, Moon, Kolb, McKee; forwards, Ewing, Cas-tidy, Van Vliet, Winchell, Stamper. Referee-Guire.

In the second game both teams played a man short.

JOHNSON ON JIM JEFFRIES

With reference to the probability of obtaining a fight with Champion Jeffries, Jack Johnson said last night: "Of course I want to fight Jeffries. When he said that he had retired from the ring, I thought the chances of getting him to meet me were very slim. But if he is coming back into the game, I want my crack at him, and I am willing to do anything to get it. Jeffries has fought negroes before and there is no reason why he should draw the color line now. The championship should go to the best fighter in the world, irrespective of the color line. Jeffries can dictate the terms to me; all I want is the chance to show the people of this country that I am not as yellow as I have been painted. It I beat Squires he will be able to ignore me no longer."

MORE ABOUT M'FADDEN GO

The Examiner has the following to say of the Murphy-McFadden go: The bout between Johnny Murphy and Jack McFadden was called a draw According to an agreement signed by the boxers before the match, the fight was to be called a draw in case both were on their feet at the end of the fourth round. Murphy clearly beat Mc-Fadden, knocking him down twice, and the judges wanted to give the decision to Murphy, but the agramment stood in the way. It was a mistake in not an-nouncing this agreement before the match started, as it placed the efferce and judges in an embaraceing light. Murphy 's one of the best of the four-round boys in San Francisco, and he was in good shape last night. McFad-

GOOD RACES

Waialua races, postponed on New Year's day, were held on Saturday last, The weather was fine and a good sized crowd witnessed the sport.

The first race was a three-eighths of a mile dash between Domino and Rainbow. The former, ridden by Domingo Ferreira, won by five lengths.

In the second event, a quarter of a mile dash, Sayonara won from three other horses.

The third race on the program wa a half mile dash between Indigo and Domino. Indigo, well-ridden by Ferreira, won by a neck, after a slashing

Next came a trotting and pacing affair with three entries, the distance be ing half a mile. A Japanese owned horse won from Chris. Holt's Whitelittle and Manuel Waialua's horse.

The suggestion of the Governor for the approval by the Bar Association of the project to hold a Panpacific Consular Congress here during the present year did not meet with the hearty approvat of Senator Smith nor Mr. Derby. but there was a friendly feeling among other members of the Bar Association, which body held a meeting for the consideration of a request by the Governar yesterday afternoon,

There were present Messrs, Stanley, Anderson, Smith, Breckons, Robertson Hemenway, Thayer, Holmes, Clemons, Derby, Marx, Harrison, W. R. Castle, Mend, C. F. Peterson, Warren and Rawlins. On motion the reading of the minutes of the previous meeting was dispensed with. The secretary announced the receipt

of an acknowledgment from F. M. Hatch of the resolution relating to appeals, and a letter from Clerk McKinley containing the same information Mr. Hatch stated that he had presented the resolution's to the Chief Justice of the Supreme Court.
The chairman here announced that

the particular object of this meeting was the consideration of a request from the Governor that the association adopt suitable resolutions encouraging a Consular Congress here. The secretary then read the following communication: January 2, 1907.

Bar Association of Hawaii, Honolulu. Gentlemen: Enclosed you will find statement of a project for the holding of a Consular Convention at Honolulu

The committee in charge of this matter desires to secure for Secretary of State Root as wide an expression of opinion as possible, and would be pleased to have you communicate direct with him at an early date, either by a letter signed by the officers of your organization or by the passage of a resolution expressing your senti-

ments in reference to the plan, Also, in order to save time, if you approve of the plan, the committee would suggest that you appeal to Con-gress for a suitable appropriation, by a resolution directed to our Delegate, Honorable J. K. Kalanianaole, Very sincerely yours, PANPACIFIC CONSULAR CONVEN-

TION COMMITTEE, G. R. CARTER, Chairman. E. H. PARIS,

Secretary. The chair said he thought it highly proper for the association to comply with the request and to adopt resolu-

tions accordingly. W. O. Smith said he was heartly in favor of the movement and hoped it could be carried out, but he failed to duties of it were on other lines, and he did not think it was right for the such measures were for action by mercantile bodies.

Castle took the opposite view and said he believed the request was germane to the duties of the association. Asked for the resolution, and the chair replied that he did not think it was his business to prepare resolutions before getting the opinion of the mem-

PROJECT OF A PANPACIFIC CON SULAR CONVENTION.

The joint committee of the Honolulu Chamber of Commerce and the Merchants' Association of Honolulu, in conjunction with the Governor, as its chairman, desires to present the follow-ing outlines of a proposal for a meeting to be held in Honolulu during the year 1907 of representatives from every American consulate situated at any port tributary to the Pacific Ocean: PLAN.

The year 1907 is favorable in that it is not a presidential election year. Public attention has been very widely attracted to our external commerce by Sec-retary Root's remarkable trip of sixteen thousand miles around the whole South American continent and his many public utterances and speeches made since his return, by which he has the baths on Saturday evening. Febru and Saturday evening. Febru elgn trade.

The dirt has begun to fly on the Panama Canal and that great enterprise the two clubs will work on a percentas become a certainty. Every manufacturer in the United States thus has sented by Jess Woods. The most in his attention called to the possibilities of the trade which is tributary to the Pacific Ocean. Its completion, as Con-gressman Knight of California has pate. stated, will cause consignments from factories located on the Mississippi River and its tributaries to be sent o ports now unknown to such manufac-

Locally, the first steamer has already sailed for Salina Cruz, the Pacific port of the Tehuantepec Railroad, which is only one of a number of instances which we have already seen of the rapid expansion of not only our own commerce, but of that which passes our

PLACE AND TIME.

Geographically, Hawaii is splendidly ocated for such a convention. Our climate is so equable that such a meetbe held at any time of the year, and we can no longer doubt the capacity of our city to provide for those who may attend. OBJECT.

The committee believes that our community will heartly assist, financially and in every other way, and demonstrate a progressive spirit by taking the lead in a matter of this for the benefit of the public: "Cham-

increase in trade which is certain to take place, and the representatives of such firms could save time and expense ntatives by meeting at a common point those who are familiar with the true interests of the various markets and points of distribution that border on the Pa-

The committee believes that the great transportation lines throughout the Paeffic would see in this project a means of materially increasing their traffic, and that they would assist by reducing their rates of fare.

The committee believes that it is not only a question affecting commerce, but that a Consular Convention would re-suit in the uplifting and improvement of the consular service. A discussion could be held as to ways of facilitating and increasing commerce that would be a distinct advantage to the whole Union. The interchange of ideas would stimulate those holding consular po-sitions to greater efforts. The practical suggestions that men actually in the service could offer might have weight and bearing on Congress in legislating concerning our consular service. Great industrial leaders have reaped material benefit from the plan introduced by the National Cash Register people in encouraging suggestions from its employes. We believe this idea can applied with advantage to the consular service of the United States.

The committee believes that if Secretary Root could find it possible to attend the convention in person it would greatly stimulate interest in the matter, and the time and effort neces-sary to such a trip would be more than repaid by its effect upon the consular service, upon commerce, and upon the international feeling that exists beween the great races that border on the Pacific Ocean.

The committee believes that, unless there are unknown serious official objections to the consuls leaving their posts of duty, it will secure the necessary official approval; and if our com-munity takes hold of the matter enthusustically and the first convention is a success, it may develop a series of annual or biennial Commercial Conventions. And the project is fraught with still greater possibilities, in that it might become an international af-

fair. The committee further believes that if our various organizations appeal to Secretary Root and secure his approval, and then follow with appeals to Congress, it may be possible to se-cure an appropriation defraying the transportation expenses of the commer-cial representatives of our Govern-

ment.
The committee also believes that the pride of our community in its reputa-tion for hospitality can be depended upon to meet the requirements necessury in entertaining, without cost to them, those who attend the conven-

for the proposed Corsular Congress be heartily endorsed and that the presi-dent and secretary of the association be requested to communicate with Hon Jonah Kalanianaole in accordance with the request of the Governor.

Again W. O. Smith protested on the score that it is not within the province of this association to point out Ha-waii as a place for holding conventions. He did not wish to belittle the movement, nor did he believe the as-sociation should mix up with it. Mr. see wherein the Bar Association, as a Derby supported Mr. Smith and said body, was concerned. character. Anything that would be for the good of the town could be encouraged by the association, and anything that would promote food fellowship among the members would be considered legitimate. This Congress would rightly come under both heads. Mr Breckons again spoke in favor of the resolutions and they were adopted and the meeting adjourned.

JAP MURDERER MAY HAVE KILLED HIMSELF

As yet there has been no trace found of Moromura, the Japanese murderer, who cut the throat of a comrade at the Honolulu plantation on New Year's eve and escaped before those present could apprehend him. The man is a stranger in the country and the fact that not the slightest trace of him has been found since he fled has led the police to believe that he has killed himself with the same weapon used upon his

friend. Since the murder several Japanese specials have been working upon the case and it has been learned that no man answering the description of Moromura has applied at any of the houses between here and the plantation for food or shelter. It is known that he had the razor with him when he fled and it supposed that returning soberness has brought remorse, leading to hari-kari.

Mr. Breckons moved that it is the BODY OF A JAPANESE BODY OF A JAPANESE FOUND IN THE HARBOR

Yesterday morning the body of & Japanese was found floating in the harbor channel near the entrance by one of the employes at Young Brothers' boathouse. The body was brought ashore and turned over to the authorities, being taken to the morgue for

identification and burial. The body is undoubtedly that of the Japanese who was seen to jump over-board from the S. S. Nippon Maru on But Attorney Harrison pointed out a Friday and who was seen to sink after section in the by-laws under which the Bar Association could legitimately take Ewa side of the channel. Nonremains have been able to identify it. and it is improbable, in view of this,

that it is that of any Honolulu man.
It is the opinion of the police that the man was one of the two Japanese being taken back to Japan, admission to the United States having been refused them at the Coast. It is sup-posed that the two men had arranged to make their escape from the liner here, and the first one to jump overboard, near the Hackfeld wharf, suc-ceeded in reaching the shore, his companion having been drowned. Until the Nippon Maru returns, however, it will be impossible to verify this theory, which if correct will leave the Toyo Kisen Kaisha open to a large penalty for allowing the men to escape.

An inquest over the remains will be

held by Deputy Sheriff Jarrett tonight. the swearing in of a jury for the inquest having been the last official act of ex-Deputy Sheriff Kalakiela. IMPORTANT BUSINESS
